How to Correct Errors Reported by SIS Data Validation

Student Module

Err	Description	Meaning	Resolution
Err 105	Alt number missing from school atom	No Alternate Number was found in the School atom.	Verify that a valid Alternate Number exists in the School atom in the Alternate# field. This must be the state assigned LEA Site Code.
	Specified cal not valid for student	A) The Calendar field (UserCd4) on page 3 of the Student atom contained a calendar code not found in the district's CALENDAR table.	Verify that you have obtained the current calendar file sent to the LA DOE through your SIS district system and copied it into your Database folder for SIS Data Validation. Verify that the Calendar code entered on page 3 of the Student atom exists in the calendar file.
		B) The Calendar field (UserCd4) on page 3 of the Student atom contains a calendar code that does not include the student's grade.	Verify that you have obtained the current calendar file sent to the LA DOE through your SIS district system and copied it into your Database folder for SIS Data Validation. Verify that the Calendar code entered on page 3 of the Student atom exists in the calendar file. Verify that the calendar code entered on page 3 of the Student atom is one for the student's current site code and grade level.
		C) The Calendar field (UserCd4) on page 3 of the Student atom contains a calendar code that does not include the alternate number listed on the school atom.	Verify that you have obtained the current calendar file sent to the LA DOE through your SIS district system and copied it into your Database folder for SIS Data Validation. Verify that the Calendar code entered on page 3 of the Student atom exists in the calendar file. Verify that the calendar code entered on page 3 of the Student atom is one for the student's current site code.
	Multi school cal, must specify	Multiple school calendars were found in the district CALENDAR table that included the student's grade.	Verify that the calendar code on page 3 of the Student atom is not left blank when more than one school calendar applies to the grade the student is enrolled in.
	Multi district cal, must specify	Multiple district calendars were found in the district CALENDAR table that included the student's grade.	Verify that the calendar code on page 3 of the Student atom is not left blank when more than one district calendar applies to the grade the student is enrolled in.
	Dist cal does not match grd level	No district calendars were found in the district CALENDAR table that included the student's grade.	Ask district SIS Coordinator to verify calendar setup.
Err 106	Grd 35 needs calendar code on current enrollment	No calendar code was found in the Calendar field on page 3 of the Student atom for the student. This is required since the grade code is 35 (Non-graded).	Verify that a valid calendar code exists for this student in the Calendar field (UserCd4) on page 3 of the Student atom.

Err 110	Invalid SSN/State ID	The student record contains an invalid SSN/State ID.	Verify that a valid SSN/State ID exists for the student on page 1 of the Student atom. This is a numeric field [0-9] whose value must be greater than 0.
Err 200	Duplicate SSN/StID	The student record contains an SSN/State ID that is also on another student.	Determine which SSN/State ID is correct on page 1 of the Student atom. Change the incorrect SSN/State ID to a valid SSN/State ID.
Err 201	Duplicate PriorSSN/StID	The student record contains a PriorSSN/StID (Alternate ID 1) that is also on another student. (Page 3 on the Student atom)	Determine which PriorSSN/StID is correct on page 3 of the Student atom. Change the incorrect PriorSSN/StID to a valid PriorSSN/StID.
Err 210	Invalid PriorSSN/StID	The student record contains an invalid PriorSSN/StID (Alternate ID 1). (Page 3 on Student atom)	Verify that a valid PriorSSN/StID exists for the student on page 3 of the Student atom. This is a numeric field [0-9] whose value must be greater than 0.
Err 212	PriorSSN/StID = SSN/StID	The PriorSSN/StID (Alternate ID 1) and the SSN/StID fields contain the same number on this student. (PriorSSN/StID is on page 3 of the Student atom)	PriorSSN/StID is used only for reassigning student numbers during SIS processing. PriorSSN/StID should be removed once LA DOE accepts the new number. Contact your SIS coordinator.
Err 214	SSN/StID = PriorSSN/StID	The SSN/StID equals the PriorSSN/StID (Alternate ID 1) on another student. (Prior SSN/StID is on page 3 of the Student atom)	PriorSSN/StID is used only for reassigning student numbers during SIS processing. PriorSSN/StID should be removed once LA DOE accepts the new number. Contact your SIS coordinator. This student cannot be reported to SIS until other student's reassign ID has been processed.
Err 220	Invalid Last Name	The student's last name is not valid according to state requirements.	Verify that that the student's last name is correct in the Student atom. The first letter of the last name or the second and third letters must not be spaces and each letter must be A-Z, apostrophe, or a dash. The name may be edited by selecting Student from the menu bar and selecting Change Name .. ID Line.
Err 221	Invalid First Name	The student's first name is not valid according to state requirements.	Verify that the student's first name is correct in the Student atom. The first letter of the first name cannot be a space, and each other letter must be A-Z, an apostrophe, dash, or space. The name may be edited by selecting Student from the menu bar and selecting Change Name .. ID Line.
Err 222	Invalid Middle Name	The student's middle name is not valid according to state requirements.	Verify that the student's middle name is correct in the Student atom. Each letter must be A-Z, an apostrophe, dash, period, or space. The name may be edited by selecting Student from the menu bar and selecting Change Name ..

			ID Line.
Err 223	Invalid Suffix Name	The student's suffix name (generation) is not valid according to state requirements.	Verify that the student's suffix name (generation) is correct in the Student atom. Each letter must be A-Z, a period, or space. The name may be edited by selecting Student from the menu bar and selecting Change Name .. ID Line.
Err 240	Invalid Birthday	The student's record contains an invalid birth date.	Verify that the birth date provided is a valid birth date in the Student atom. (i.e., Month > 0 and < 13, Day > 0 and < the maximum number of days in the month entered, and Year > 1900).
Err 250	Invalid Sex Code	The student's record contains an invalid gender code according to state requirements.	Verify the gender code is correct for the student in the Student atom. Gender code must be 'M' or 'F'. The gender code may be edited by selecting Student from the menu bar and selecting Change Name .. ID Line.
Err 260	Invalid Ethnic Code	The student's record contains an invalid ethnic code according to state requirements.	Verify the correct ethnic code for the student in the on page 1 of the Student atom.
Err 265	Country of Birth Required	A) A record was NOT found for the student in the Home Language table.	Find the student in the Student atom, open the Home Language atom, and enter the correct country code in the Country field and save the record.
		B) A record was found for the student in the Home Language table, but the country field did not contain a value.	Verify that the Country field in the Home Language table contains a value.
Err 266	Invalid Country of Birth	The student's record contains an invalid country code according to state requirements.	Verify the country field for the student in the Home Language atom.
Err 267	Invalid Entry Date	The student's record contains an invalid U.S. entry date.	Verify the U.S. entry date in the U.S. Entry Date field of the Home Language atom. This value must be a valid date.
Err 268	US Entry Date Missing	The student's record does not contain a value in the U.S. Entry Date field when the Country of birth is not "US".	Verify that the student's record contains an entry date in the U.S. Entry Date field in the Home Language atom.
Err 380	Language Code Required	The student's record does not contain a value in the SIS Language Code (PrimLang) field.	Verify there is a value in the SIS Language Code (PrimLang) field on page 2 of the Student atom.
Err 381	English Proficiency Required	The student's record does not contain a value in the English Proficiency (ESL) field.	Verify there is a value in the English Proficiency (ESL) field on page 1 of the Student atom.
Err 382	LEP Funding Source Required	The student's record does not contain a value in the LEP Funding (UserCd3) field when English Proficiency is set to '02', Limited English Proficiency.	Verify there is a value in the LEP Funding (UserCd3) field on page 3 of the Student atom. This value cannot be blank when English Proficiency is set to '02', Limited English Proficiency.
Err 383	Invalid Language Code	The student's record contains an invalid SIS Language Code (PrimLang) according to state requirements.	Verify the SIS Language Code (PrimLang) on page 2 of the Student atom.
Err 384	Invalid English Prof Code	The student's record contains an invalid English Proficiency (ESL) code according to state requirements.	Verify the English Proficiency (ESL) code on page 1 of the Student atom.

Err	Description	Meaning	Resolution
Err 385	Invalid LEP Funding Source	The student's record contains an invalid LEP Funding (UserCd3) code according to state requirements.	Verify the LEP Funding (UserCd3) code on page 3 of the Student atom.
Err LA3	Lang cannot be English if Limited English Proficient	The student's record contains an English Proficiency code of '2' (Limited English Proficiency) and a SIS Language of '034' (English)	Verify that the student's English Proficiency code should be '2' (Limited English Proficiency). If so, change the SIS Language to the student's primary language. This should be something other than '034' (English).
Err LA4	Fully English Proficient requires English as SIS Lang	The Student's record contains an English Proficiency of '1' (Fully English Proficient) and a SIS Language of something other than '034' (English)	Verify that the student's English Proficiency code should be '1' (Full English Proficiency). If so, change the SIS Language to '034' (English).

Enrollment Module

Err	Description	Meaning	Resolution
Err 300	No Enroll Records	No enrollment records were found for the student.	Any student that has to be reported to LA DOE through SIS must have at least an entry enrollment record. Call district SIS/SASIxp support to properly enroll this student.
	No Enroll Rec in date range	No enrollment records were found for the student in the date range of the appropriate calendar found in the district's CALENDAR table.	Any student that has to be reported to LA DOE through SIS must have at least an entry enrollment record. Call district SIS/SASIxp support to properly enroll this student.
Err 316	Entry Date Must be First Day of School	The student's enrollment record contains an E1 (Original Enrollment), but the Entry Date is after the first day of school. (This applies to grades 1-12.)	Change either the entry date or entry code of the enrollment on Enrollment History page of the Enrollment atom.
Err LA5	Invalid Homeless Indicator	Homeless Indicator on the enrollment record does not match those allowed by the LA DOE.	Check with your SIS coordinator about running a query to remove the invalid value from the USERPGM1 field of the appropriate enrollment record.

Discipline Module

Err	Description	Meaning	Resolution
Err 373	No matching discipline record type 3 or 5 with exit reason 1	If Exit Code is 01 (Expelled), the corresponding Disciplinary Type on the Discipline Record must be 3 (Expulsion).	Verify that there is a discipline record with type 3 (Expulsion). Verify that the Exit Code is supposed to be type 01 (Expelled).
Err 402	Duplicate discipline records	Discipline record information cannot be identical.	Verify the information in the discipline records is correct.
Err 403	Overlapping discipline records	Disciplinary Action Dates cannot overlap.	Verify that Discipline Action Dates are correct.
Err 405	Exit Date must = Discipline Date for Discipline Code indicated	For Discipline Type 3 (Out of School Expulsion), Exit Date must equal Discipline Date.	Verify there is an enrollment record that has an exit date = start date of the discipline record type 3.
Err 441	Discipline return date <= Discipline Date	The Discipline Return Date must be after than the Discipline Action Date.	Verify the Discipline Return Date is after the Discipline Action Date.

Attendance Module

Err	Description	Meaning	Resolution
Err 354	Days absent < days suspended	Total days absent are less than the number of days the student was suspended.	Verify the number of absences is at least equal to the number of days suspended out of school.
Err 371	Absences not allowed with exit reason	Absences not allowed for a student who has been exited with Exit Reason code 18 (No show).	Verify there are no absences for the student exited with exit reason 18 (No Show).

CUR Module

Err	Description	Meaning	Resolution
Err 106	Invalid Class Code	Class Code cannot be blank.	Verify Class Code (SectionID) in Sections is not blank.
Err 108	Invalid Course Code	Course Code must be valid according to approved ASR Course Codes.	Verify Course Code (StateCrsID1) in Course atom is a valid ASR Course Code.
Err 112	Invalid Total Class Time	Time must be a valid numeric value	Verify Total Class Time (Annual Minutes) in Sections atom is a numeric value.
Err 113	Invalid Special Ed Placement Setting Code	Special Education Placement Setting Code must either be blank (if Course Code is not in a Special Education category), or a Valid code according to Special Education Placement Setting Code Table from ASR.	Verify SPED Placement (InstrType) in Sections is a valid value or blank.
Err 114	Invalid Course Type Code	Course Type Code is not a valid code.	Verify Course Type Code (N/H in Course atom) is a valid Course Type Code. This field must be mapped. If this is a valid value, see district SIS Coordinator.
Err 115	Invalid Distance Learning Course Type Code	Distance Learning Course Type Code is not a valid code or is not blank.	Verify Distance Learning Code (StateCrsID2) in Course atom is a valid LDE code or blank.
Err 208	Special Ed Placement Setting Code Required	The SPED Placement Setting Code is required for all Course Codes designated as Special Education (SPED). A SPED Course Code was used without including the SPED Placement Setting Code.	Verify SPED Placement (InstrType) field in Sections atom is not blank.
Err 209	Special Ed Placement Setting Code not Allowed	For regular education Course Codes, the SPED Placement Setting Code must be blank.	Verify SPED Placement (InstrType) field in Sections atom is blank.
Err LA1	Missing Teacher Social Security Number	Social Security Number is missing from the Teacher atom.	Verify the Soc Sec No field on the Teacher atom has a value.
Err LA2	Missing Teacher Employee Number	Employee Number is missing from the Teacher atom.	Verify the Employee No field on the Teacher atom has a value.

STS Module

Err	Description	Meaning	Resolution
Err 105	Invalid State Identification Number	State Identification Number must be numeric.	Verify a valid SSN/State ID exists for the student on page 1 of the Student atom. This is a numeric field [0-9] whose value must be greater than 0.
Err 203	Invalid Student First Name	First position of Student First Name cannot be blank.	Verify student's first name is correct in the Student atom. The first letter of the first name cannot

			be a space. The name may be edited by selecting Student from the menu bar and selecting Change Name .. ID Line.
Err 204	Invalid Student Last Name	First position of Student Last Name cannot be blank.	Verify student's last name is correct in the Student atom. The first letter of the first name cannot be a space. The name may be edited by selecting Student from the menu bar and selecting Change Name .. ID Line.
Err 205	Invalid Birth Date	Birth Date must be a valid date (MMDDYYYY) & must be < Current Date.	Verify Birth Date is a valid date (MMDDYYYY) in Student atom. The Birth Date must also be before the current date.
Err 206	Invalid Ethnic Code	Ethnic Code must be a valid LDE Ethnic Code.	Verify Ethnic Code in Student atom is a valid LDE Ethnic Code. This field may be mapped. If the value is valid, see district SIS coordinator.
Err 207	Invalid Sex Code	Sex Code must = 'M' or 'F'.	Verify Gender is 'M' or 'F' in Student atom.
Err 208	Invalid Grade Placement Code	Grade Placement Code must be '09' through '12'.	Verify grade placement is grade '09', '10', '11', or '12' in the Student atom.
Err 209	Invalid Grade 9 Entry Year	Grade 9 Entry Year must be a valid year <= Beginning School Session Year and > 1990.	Grade 9 Entry Year is pulled from the earliest Course History record (SchoolYr) entered for grade '09'. Verify record with the earliest School Year value is a valid year after 1990.
Err 210	Invalid Graduation Date	If not blank, Graduation Date must be a valid date (MMDDYYYY).	Verify Graduation Date in Student atom is a valid date.
Err 214	Grad Date only allowed on 12th Graders	Graduation Date only allowed on Grade 12 students.	Verify there is not a Grad Date on Page 2 of the Student atom.
Err 302	Invalid Course Code	Course Code must be a valid ASR Course Code.	Verify Course Code (StateCrsID1) in Course atom is a valid ASR Course Code.
Err 303	Invalid Course Part Number	Course Part Number must be '1', '2', or blank.	Verify Course Part Number (UserField3) in Course History atom is a valid Course Part Number (1, 2, or blank).
Err 304	Invalid Semester Code	Semester Code must be a valid LDE Semester Code.	Verify Semester Code (Term in Course History atom) is a valid Semester Code. This field must be mapped. If this is a valid value, see district SIS Coordinator.
Err 305	Invalid Letter Grade Code	Letter Grade must be a valid LDE Letter Grade Code.	Verify Letter Grade Code (Mark in Course History atom) is a valid Letter Grade Code. This field must be mapped. If this is a valid value, see district SIS Coordinator.
Err 306	Invalid Credit Attempted Count	Credit Attempted must be a valid numeric value.	Verify that Credit Attempted in Course History must be a valid numeric value.
Err 307	Credit Attempted Count > 0 & Letter Grade = 'E'	If Letter Grade = 'E', Credit Attempted must = 0.	Verify that Credit Attempted in Course History atom = 0. Verify that Letter Grade is supposed to be equal to 'E'.
Err 308	Credit Attempted = 0 & Letter Grade <> 'E'	If Letter Grade <> 'E', Credit Attempted must be > 0.	Verify that Credit Attempted in Course History atom is greater than

			0. Verify that Letter Grade is supposed to be a Letter Grade other than 'E'.
Err 309	Credit Attempted Count = 0 & Waiver Flag = 'N'	If Core Curriculum Waiver flag is blank, Credit Attempted must be > 0.	Verify that Credit Attempted in Course History is greater than 0.
Err 310	Invalid Credit Earned Count	Credit Earned must be numeric and <= Credit Attempted.	Verify that Credit Earned is a valid numeric value and less than Credit Attempted. Credit Earned can be viewed/modified using Query (ACHS).
Err 311	Invalid Credit Earned Count for Letter Grade 'F'	If Letter Grade = 'F', Credit Earned must = 0.	Verify that Credit Earned = 0. Credit Earned can be viewed/modified using Query (ACHS).
Err 312	Credit Earned Count <> Credit Attempted Count for Letter Grade 'P'	Credit Earned must equal credit attempted for Letter Grade 'P'.	Verify that Credit Earned = Credit Attempted. Credit Earned may be viewed using Query (ACHS).
Err 313	Credit Earned Count not > 0 for Letter Grade 'A','B','C','D', or 'P'	Credit Earned must be greater than 0 for a passing grade (A, B, C, D, or P).	Verify that Credit Earned is greater than 0. Credit Earned can be viewed/modified using Query (ACHS).
Err 314	Invalid Grade Point Maximum Count	Grade Point Maximum Count must be numeric and >= 4.00.	Verify the quality points are defined correctly for the default GPA (Default GPA Type in Grading Setup atom) in the GPA Definition atom. One quality point value must be >= 4.00.
Err 316	Invalid Core Curriculum Waiver Flag	Core Curriculum Waiver Flag must be blank or 'Y'.	Verify that the Core Curriculum Waiver Flag (UserField2) in Course History atom is blank or 'Y'
Err 317	Core Curriculum Waiver Flag 'N' for Letter Grade 'E'	Core Curriculum Waiver Flag must be 'Y' for a course receiving Letter Grade 'E'.	Verify that the Core Curriculum Waiver Flag is 'Y' Course History atom. Verify that the Letter Grade is supposed to be 'E' in the Course History atom.
Err 318	Core Curriculum Waver Flag 'Y' & Letter Grade <> 'E'	Letter Grade 'E' is required for a course that has a Core Curriculum Waiver Flag 'Y'.	Verify that the Letter Grade is 'E' in the Course History atom. Verify that the Core Curriculum Waiver Flag (UserField2) in the Course History atom is supposed to be 'Y'.
Err 319	Invalid Course Sponsor Code	Course Sponsor code must be blank or a valid LDE sponsor code.	Verify that the Course Site Code (UserField1) in the Course History atom is either blank or a valid LDE site code
Err 321	Invalid Course Site Code	Course Site Code must be blank or a valid LDE site code.	Verify that the Course Site Code (UserField1) in the Course History atom is either blank or a valid LDE site code.
Err 324	Invalid Course Site Name	Course Site Name is required if Course Site Code is blank.	Verify that the school number at which the course was taken is defined in the Schools Attended atom.
Err 327	Course Part Number not allowed if Letter Grade 'P' or 'E'	Courses having a Letter Grade of 'P' or 'E' cannot contain a Course Part Number.	Verify the Course Part Number in the CrsPrtNum field (UserField3) in the Course History atom.
Err 329	Nonnumeric Quality Points Awarded Count	Quality Points must be a numeric value.	Verify the quality points are defined correctly for the default GPA (Default GPA Type in Grading Setup atom) in the GPA Definition atom.

Err 330	Quality Points Awarded Count <> 0 for Letter Grade 'P', 'E' & 'F'	Quality Points must be 0 for Letter Grade 'P', 'E' & 'F'.	Verify the quality points are defined correctly for the default GPA (Default GPA Type in Grading Setup atom) in the GPA Definition atom.
Err 331	Quality Points Awarded Count = 0 for Letter Grade 'A', 'B', 'C', 'D'	Quality Points cannot be 0 for Letter Grade 'A','B','C', or 'D'.	Verify the quality points are defined correctly for the default GPA (Default GPA Type in Grading Setup atom) in the GPA Definition atom.
Err 332	Quality Points Awarded Count <> Grade Point Maximum Count for Letter Grade 'A'	Letter Grade 'A' should have the highest (Grade Point Maximum) Quality Point Value.	Verify the quality points are defined correctly for the default GPA (Default GPA Type in Grading Setup atom) in the GPA Definition atom.
Err 333	Quality Points Awarded Count not < Grade Point Maximum Count for Letter Grade 'B', 'C', 'D'	Letter Grades 'B', 'C', & 'D' should not have the highest (Grade Point Maximum) Quality Point Value.	Verify the quality points are defined correctly for the default GPA (Default GPA Type in Grading Setup atom) in the GPA Definition atom.
Err 334	Invalid Course Type Code	Course Type Code (N/H in Course atom) is not considered a valid Course Type Code.	Verify the Course Type Code (N/H in Course atom) is a valid Course Type Code. This field must be mapped. If this is a valid value, see district SIS Coordinator.
Err 335	Invalid Distance Learning Course Type Code	Distance Learning Course Type Code (StateCrs2 in Course atom) is not considered a valid Distance Learning Course Type Code.	Verify that the Distance Learning Course Type Code (StateCrs2 in Course atom) is a valid Distance Learning Course Type Code.
